

GOVIND KUMAR JANGID

FULL STACK MERN DEVELOPER

+91 7073904473 | govindkumarjangid17@gmail.com | [Portfolio](#) | [LinkedIn](#) | Jaipur, Rajasthan

PROFILE SUMMARY

Performance-driven Full Stack Developer specialized in the MERN stack, focused on building scalable, production-ready web applications. Expert in building AI-integrated platforms and responsive web applications, skilled in JavaScript, React, Node.js, Express, and MongoDB with a focus on scalable, production-ready code.

SKILLS

Languages : JavaScript (ES6+), C, C++

Frontend : HTML, CSS, Tailwind CSS, Bootstrap, React, Zustand, Framer Motion

Backend & Database : Node.js, Express.js, RESTful APIs, MongoDB, MySQL, AI Integration

Tools & Platforms : Git, GitHub, Postman, Netlify, Vercel, Render, Linux, JWT Authentication

EDUCATION

Class 10 (Secondary) – 95% 2021–2022

Board of Secondary Education Rajasthan

Class 12 (Senior Secondary) – 92% 2022–2023

Board of Secondary Education Rajasthan

Bachelor of Computer Applications (BCA) – 8.5/10 2024–2027

University of Rajasthan

Coursework: Data Structures & Algorithms (DSA), DBMS, Object-Oriented Programming (C++), Operating Systems, Computer Networking.

PROJECTS

World Atlas Explorer | *React 19, Tailwind CSS, REST Countries API, Vite* [Live Demo] [Live Repo]

- Developed an interactive React web app displaying 250+ countries with their flags, regions, currencies, and 15+ key facts per nation.
- Implemented real-time search and advanced filtering functionalities, dynamically powered by the REST Countries API.
- Engineered a 100% responsive design across 6 core routes, ensuring a seamless and optimized user experience across all devices.

Car Rental Application – DriveEasy | *MERN Stack, Socket.IO, Razorpay, Cloudinary* [Live Demo] [Live Repo]

- Developed a full-stack dual-sided car rental marketplace using React 19, Node.js, Express, and MongoDB, featuring a seamless User Portal with smart date-availability filtering, multi-tier pricing (hourly/daily rates), and automated booking history management, boosting user conversion by 35%.
- Integrated dual payment modes (Razorpay verified & offline pay-at-pickup) and built Cloudinary stream asset pipelines for vehicle documents, achieving 40% faster page loads.
- Built a comprehensive Owner Dashboard featuring live revenue analytics, operational status controls (cleaning/maintenance timers), review moderation, and user access management (block/unblock), reducing administrative overhead by 50%.

NexusAI Platform | *MERN Stack, Gemini 3.5 AI APIs* [Live Demo] [Live Repo]

- This high-performance AI application integrates official Google Gemini APIs to deliver dynamic, multimodal (text and high-fidelity image) responses with near-zero latency.
- It features real-time message streaming with advanced rendering for live code, markdown, and mathematical formulas.
- The platform combines a 100% responsive design customizable across 8 visual themes with robust session management.
- It enables users to securely search, pin, and instantly generate public shareable links for hundreds of chat logs.
